SUMMARY

PMP-certified Senior Project / Program Manager with 8+ years of delivery leadership, including nearly 4 years at Cisco running $10M–$105M cybersecurity, data center, SD-WAN, wireless and collaboration programs for Fortune 500 clients such as Duke Energy, DTCC, Liberty Mutual, Navy Federal Credit Union and Johnson & Johnson. Brought into troubled, client-facing programs to diagnose the real problem, make fast data-driven calls and turn accounts into renewals, growth and profit. Strong in governance, financial management and executive reporting; builds AI-powered dashboards, KPI tracking and automations. Fully bilingual English/Spanish; leads distributed, multicultural teams.

EXPERIENCE

Cisco Systems Remote

Senior Project Manager / Program Manager Oct 2022 – Jun 2026

- Owned end-to-end, client-facing delivery of $10M–$105M programs across energy, financial services, insurance, life sciences and telecom, often several at once, with teams of up to 35+ engineers, PMs, partners and vendors. Owned governance, steering-level reporting, budgets and margins. Program Manager on two multi-project programs; promoted two grade levels to Senior Project Manager.
- **Duke Energy** *(Energy & Utilities, $65M, 35+ people)*: Lead PM, then Program Manager. Inherited 700+ blocked data center sites with no remediation process. Designed a new operating model with clear roles, logistics, communication and prioritization standards, plus tiered site proposals that increased upsell. Cut the backlog to 55 (−92%) in under a year with PMs running sites in parallel; delivered record annual revenue and secured the 5-year contract renewal. Then reassigned to the Johnson & Johnson account based on delivery performance.
- **DTCC** *(Financial Market Infrastructure, $25M)*: Program Manager brought in 9 months before renewal to recover a client frustrated by slow, manual upgrades. Built an automation team with engineering to standardize firewall, SD-WAN, wireless and Webex changes, turning weeks of work into a repeatable process. Client renewed at 3x the budget.
- **Liberty Mutual** *(Insurance, $55M cybersecurity)*: Joined an unprofitable program where the budget never seemed to cover requests. Traced funds to a low-value feature, delivered the hard news and redirected that team to infrastructure work with immediate business value, without cutting budget. Coached PMs to filter requests against client goals. Account turned profitable in under a year.
- **Navy Federal Credit Union** *(Banking, $105M)*: Took over a long-dissatisfied account. Turned an escalated executive Wi-Fi complaint into a site survey that proved the root cause and exposed outdated network documentation, fixing both and restoring executive trust. That trust led the client to approve new access points and equipment to expand its wireless network.
- **Also delivered for** Johnson & Johnson *(Life Sciences, $10M)*, Megacable and Metrocarrier *(Telecom, Mexico; data center projects of MXN $27M and $17M)*, and engagements with Salesforce, Apple, HSBC and Banorte.

Ochenta & Ocho Remote

Founder & Project Lead, AI-Built E-commerce Launch May 2026 – Present

- Led the end-to-end launch of an e-commerce business built entirely with AI tools: Shopify storefront and catalog, logistics and supplier coordination, financial models, dashboards and automated workflows.

EARLIER EXPERIENCE

Heritage Communities (U.S., remote) – *Agile Delivery Support, Contract*: designed Kanban operating models and delivery metrics — Nov 2021 – Apr 2022

PlacidWay Medical Tourism (U.S., remote) – *Scrum Master & Team Lead* — May 2020 – Jan 2021

Vanguardia Eléctrica Civil – *Operations Director*: logistics, schedules and budgets for 12 awarded public bids (MXN $45M–$78M each) — Feb 2018 – Dec 2020

CERTIFICATIONS

Project Management Professional (PMP), PMI, 2025 • Disciplined Agile Scrum Master (DASM), PMI • Scrum Master Certified (SMC), VMEdu, 2023 • ITIL 4 Foundation, PeopleCert • Google Project Management Certificate • Cisco Generative AI Green & Blue Belts • Cisco Project Manager Green Belt
